Table of Contents

- Company Intro
- Fire Hose
- Fire Hose Coupling
- Fire Hose Reel
- Fire Sprinkler
- Fire Extinguisher

Quanzhou Winner Fire Fighting Equipment Co., Ltd. is the only subsidiary corporation of Huaxia Hose manufacturer for international business. Established in 1985, with over 30 years of producing and quality control experience, we are one of 10 leading and earliest fire fighting equipment in China.

Our main product lines include fire hose, fire hose coupling & nozzle, fire hose reel, fire sprinkler, fire extinguishers and fire fighting equipments ect .

Our Advantages

- 28,000 square meter workshop with advanced equipments(more than 350 circular weaving machine, 10 more numerically-controlled machine tool, advanced Electrophoresis production line, painting line and hose producing line etc)
 - Annual production capacity (say over 2500,000 m for fire hose.)
 - Strict quality control (Products have passed ISO9002, MA, ILAC-MRA, AL, CNAS and 3C test from National quality supervision and inspection center of fire-fighting equipment.)
 - OEM & ODM service are available to meet any special requirement from customer home and abroad. (We also have our patented products.)
 - Brand culture got approved by Fujian province government. (Every certifications can be tracked from their official website.)
 - Close to seaport.(One hour reach Xiamen Port.)
- That's how we keep value for our customers.

Let's join hands to grow together !

Winner
Fire Hoses

- Light Weight
- Good Elasticity
- Small Flow Resistance
- Easy Winding

PVC FIRE HOSE

- Light weight
- Tight Structure
- Corrosion Resistance
- Ozone Resistance
- Long Service Life

EPDM FIRE HOSE

- Wear Resistance
- Easy Cleaning
- Impact Resistance
- Ozone Resistance
- Long Service Life
- High Temperature Resistance

TPU HOSE

- Shape Maintained
- Light Weight
- High Pressure Resistance
- Small Flow Resistance

REEL HOSE

- Light Weight
- Wear Resistance
- Long Service Life

PU FIRE HOSE

- Wear Resistance
- Corrosion Resistance
- Cold Resistance
- Small Flow Resistance

RUBBER FIRE HOSE

- High Tensile Strength
- Lays Flat for Easy Storage
- UV Resistance
- Long Service Life

LAYFLAT PVC HOSE

- Light Weight
- Handles Full Vacuum
- Flexible PVC Construction

PVC SUCTION & DISCHARGE HOSE

- High Pressure Proof
- Wear Resistance
- Long Service Life

DOUBLE JACKET FIRE HOSE

- Strong Abrasion Resistance
- Oil, Acid, Alkali Resistance
- Strong Cohesive Force

NBR DOUBLE COATING HOSE

- Light Weight
- Handles Full Vacuum
- Flexible PVC Construction

Braided PVC SUCTION & DISCHARGE HOSE

Storz Coupling

Aluminium / Brass
Size: 1", 1.5", 2", 2.5"
Quick Connect

UNI Coupling

Brass
Size: UNI25, UNI45, UNI70
Thread Connect

Machino Coupling

Aluminium / Brass
Size: 1.5", 2", 2.5"
Quick Connect

Barcelona Coupling

Aluminium / Brass
Size: DN45, DN70
Quick Connect

Instaneous Coupling

Aluminium / Brass
Size: 1.5", 2", 2.5"
Quick Connect

Ghost Coupling

Alumn Alloy
Size: 1", 1.5", 2", 2.5"
Quick Connect

Nakajima Coupling

Aluminium / Brass
Size: 1.5", 2", 2.5"
Quick Connect

Rocker / Pin Lug Coupling

Aluminium / Brass
Size: 1.5", 2", 2.5"
Thread Connect

Chrome Plated Glass Bulb Fire Sprinklers

Features

- Standard or Quick Response
- Pendent, Upright, Sidewall & Concealed
- Anti Aging & Corrosion
- Suitable for medium-light fire

Application:

Hotels, shopping malls, restaurants, entertainment venues, warehouses, hospitals, factories, airports and basements etc.

Chrome Plated Glass Bulb ESFR Fire Sprinkler

Features

- Quick Response
- Pendent, Upright
- High flow
- Reliable Action

Maximum Indoor Height	Maximum Stack Height	Water Supply Pressure
9.1m	7.6m	0.34MPa
10.7m	9.1m	0.52MPa
12.2m	10.7m	0.52Mpa

Application:

Suitable for protecting high stacking and goods on high places

QR-EC-HSW115 Large Scale Fire Sprinkler

Features

- Quick Response
- Sidewall
- High flow
- Reliable Action

Application:

Widely used in warehouse, plaza, hospital, buildings.

Fusible Alloy Fire Sprinkler

Features

- Compact
- Pendent, Upright, Sidewall
- Less fragile
- Low Temp Suitable

Application:

Refrigeration storage, Warehouse without heat, underground garage etc.

Fusible Alloy ESFR Fire Sprinkler

Features

- Quick Response
- Pendent, Upright
- High flow
- Reliable Action

Application:

Refrigeration storage, Warehouse without heat, underground garage etc.

Open Type Sprinkler

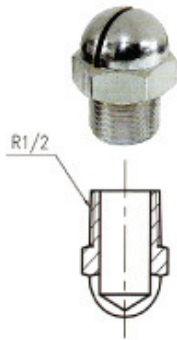

Features

- Pendent, Upright, Sidewall
- Fire sprinklers without glass bulb

Application:

Mainly used in deluge system

Water Curtain Nozzle

Features

Forming a water curtain to block the flame penetration, absorb heat and separate smoke.

Application

Large factories, workshops, halls, theaters, stage and building doors, windows, openings and other parts or between adjacent buildings.

Water Mist Spray Sprinkler

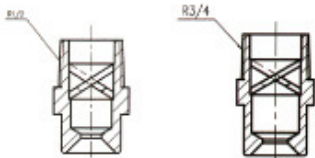

Features

Water inside this type of sprinkler goes through collision, rotation and stirring, becoming tiny water drops with function of cooling, oxygen starvation, and electric insulation.

Application

It is widely used on industrial sites for flammable, combustible gas, liquid processing and storage.

Foam Sprinkler

Features

Combining air with foam, with function of cooling, oxygen starvation, reduce heat radiation.

Application

It is widely used on industrial sites for liquid processing and storage

Hanging Fire Extinguisher

Features

Automatic, Robust construction
Efficient performance

Application

Commercial area, large warehousing unit, manufacturing mills

Small Fire Extinguisher

Features

Light, potable, easy to use

Application

Home, Office, Vehicles

Fire Knock-out

Feature:

Light weight
10times extinguishing effect of water
No maintainance need
Environment Friendly
Easy use

Application:

Home, Office, Vehicles

Fire Extinguisher Ball

Feature:

Automatic
High efficiency
Light weight
No maintainance need
Environment Friendly
Easy use

Application:

Home, Warehouse, Vehicles

Fire Ampoule

Feature:

Automatic
Light weight
10times extinguishing effect of water
No maintainance need
Environment Friendly
Easy use

Application:

Home, Kitchen, Office, Vehicles

Fire Trace

Feature:

High efficiency,
Samrt & Automatic,
Simple installation.

Application:

Telecommunication Industry,
Power Industry,
Valuable Equipment Room

FM200 Hanging Fire Extinguisher

Feature:

- Easy installation
- Low engineering investment.
- Fast extinguishing effect.
- Capacity: 6L, 8L, 10L, 16L, 20L, 30L

Application:

It is mainly used in smaller room, does not occupy the the ground area.

FM200 Pipe Network Extinguishing System

Feature:

- Zero ODP.
- Clean, low toxicity,
- Good electrical insulation, high fire extinguishing efficiency.
- Capacity: 40L, 70L, 100L, 120L, 150L, 180L

Application:

Telecommunication Industry,
Power Industry,
Valuable Equipment Room,

FM200 Cabinet Extinguisher

Feature:

- Independent sets, flexible installation, elegant appearance.
- Install in the protection zone, handy and removable.
- Capacity: 40L, 70L, 90L, 120L, 150L, 180L

Application:

Telecommunication Industry,
Power Industry,
Valuable Equipment Room,
Collection Agency

Pressure Relief Vent

Feature:

- Automatic
- Low power consumption

Application:

Ensure building palisade structure does not exceed the permitted pressure.
